This is the reply from Linda. We are good to go on this transcript. Do you know how to ensure no comments are still visible or hidden and need to be expunged from the copy before Tamue loads it to the docket?

Don,

Yesterday, Diana forwarded the edited asbestos meeting transcript. It was not a mark-up, so I compared her version to the original from Linda. The resulting file is attached.

I did a cursory review of the changes and made only one change (on page 775, "next" was changed to "lack." I think it should have been "neck," but I didn't listen to the audio).

As with PCE, please forward this to the contractor for their review and acceptance of the changes. Then, I think we can proceed with file inspection, conversion to pdf, and upload to the docket.

Thanks.

Steve
